ETCHABILITY Standards for Crystal D

Enlarged Example:

Touched Up Example:

✱—1 Point line

Example:

TOYOTA
CERTIFIED
Used Vehicles

1 Inch
Example: The Best New Cars Make The Best Used Cars

Etchable: The Best New Cars Make The Best Used Cars

LINES AND SHAPES

For the mask to hold throughout the etching & masking process, everything needs to be a minimum of

1 point thick.

The gaps as well as the fills need to be 1 point wide. Sharp thin lines need to be blunted or rounded, so they do not move when masking.
